Code: **E-BUC-BF-MFAK**
Material: **Plastic Box**
Type: **Gel and dressing**
Content: **Various assortment**
Utilization: **Vehicle, home, office**

BurnFree Small First Aid Kit for Burns

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The Small Burn Kit is small, portable and perfect for vehicles, home kitchens, and backpacks.

Kit Contents: (1) 2"x 6" dressings, (1) 4"x 4" dressings, (3) 3.5 g single dose packets, (1) 2 oz. bottle, (1) kit box with built in closure

Code: **E-BUC-BF-SFAK**
Material: **Plastic Box**
Type: **Gel and dressing**
Content: **Various assortment**
Utilization: **Vehicles, home, backpack**

BurnFree 1/8 Oz. (3.5 G) Pain Relieving Gel

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. This gel is ideal for all minor burns. The convenience of a single dose packets makes BurnFree Pain Relieving Gel portable and easy to use to treat burns.

Code: **E-BUC-BF-G3.5G**
Type: **Gel – Single dose**
Net Content: **1/8 Oz – 3.5 g**
Utilization: **Small burns**

BurnFree Sterile Burn Wound Dressing 2"x 6"

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The 2"x 6" (5 cm x 15 cm) BurnFree Sterile Dressing is ideal for small burns on fingers and hands, or anywhere a small burn has occurred.

Code: **E-BUC-BF-WD26**
 Type: **Wound dressing**
 Size: **2" x 6" (5 x 15 cm)**
 Utilization: **Small burns: fingers and hands.**

BurnFree Sterile Burn Wound Dressing 4"x 4"

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The 4"x4" (10 cm x 10 cm) BurnFree Sterile Dressing is our most popular dressing. It is a standard size that works for most burn applications.

Code: **E-BUC-BF-WD44**
 Type: **Wound dressing**
 Size: **4" x 4" (10 x 10 cm)**
 Utilization: **Standard size for most burn applications.**

BurnFree Sterile Burn Wound Dressing 8" x 8"

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The 8"x 8" (20 cm x 20 cm) BurnFree Sterile Dressing can be used for larger burns such as on the arms or face. For burns on the face, the foam can easily be cut or torn to accommodate for eyes, nose, or mouth. It is also ideal for use on larger burn injuries, such as scalding burns.

Code: **E-BUC-BF-WD88**
 Type: **Wound dressing**
 Size: **8" x 8" (20 x 20 cm)**
 Utilization: **Burns on the face: eyes, nose, mouth. Scalding burns.**

BurnFree Sterile Burn & Wound Dressing 12"x 12"

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The 12" x 12" (30 cm x 30 cm) BurnFree Sterile Dressing can be used for larger burns on arms, legs, shoulders, back, and face.

Code: **E-BUC-BF-WD1212**
 Type: **Wound dressing**
 Size: **12" x 12" (30 x 30 cm)**
 Utilization: **Large burns on arms, legs, shoulders, back, face**

BurnFree Sterile Burn & Wound Dressing 12"x 16"

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The 12" x 16" (30 cm x 40 cm) BurnFree Sterile Face Mask Dressing is designed with cut outs for the eyes, nose and mouth keeping nasal passages, eyes and the mouth clear, as the dressing brings cooling relief from pain and the covered area is protected from further contamination.

Code: **E-BUC-BF-WD1216**
Type: **Burn dressing**
Size: **12" x 16" (30 x 40 cm)**
Utilization: **Face mask dressing**

BurnFree Fire/Trauma Blanket 36"x 30"

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The BurnFree 36" x 30" (91 cm x 76 cm) Fire/Trauma Blanket (in carry bag) is designed for emergency and industrial use, and to also provide physical protection from heat, fire, and smoke.

Code: **E-BUC-BF-FTB3630**
Type: **Blanket**
Size: **36" x 30" (91 x 76 cm)**
Utilization: **Industrial Use. Large Burns on the body. Protection from heat, fire, smoke.**

BurnFree Fire/Trauma Blanket 6'x 5'

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. The BurnFree 6' x 5' (183 cm x 152 cm) Fire/Trauma Blanket is a good size for escaping a fire. BurnFree Fire/Trauma Blankets are designed for emergency and industrial use, and to also provide physical protection from heat, fire, and smoke.

Code: **E-BUC-BF-FTB65**
Type: **Blanket**
Size: **6' x 5' (183 x 152 cm)**
Utilization: **Industrial Use. Large Burns on the body. Protection from heat, fire, smoke.**

BurFree Pain Relieving Gel, 2 Oz (60ML) Bottle

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn. This gel is ideal for all minor burns. The 2 oz. bottle is designed for inclusion in first aid kits, at home, and in the work place.

Code: **E-BUC-BF-B60ML**
Type: **Gel - Bottle**
Net Content: **2 Oz (60 ml)**

Heartsine Samaritan PAD 350P AED

The HeartSine samaritan® PAD 350P was designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system. Its advanced technology is balanced against the demands of real world use. This user-friendly AED provides easy to follow visual and audio prompts to guide the rescuer from pad application to shock delivery, if required. Made in UK.

Code:	E-AED-HS-PAD350
CPR Advisor:	Yes
Weight:	1,1 kg
Size:	20 x 18.4 x 4.8 cm
Battery capacity:	> 60 shocks or 2 hrs
Pediatric switch:	Pediatric Pad Pak
Electrode shelf life:	4 years
Battery standby life:	4 years
Memory for ECG:	90 mn
Waterproof:	Yes
Warranty:	8 years

Heartsine Samaritan PAD 500P AED

The HeartSine® samaritan® PAD 500P defibrillator provides all the advantages of the 350P with integrated CPR Advisor™. It is the most innovative device available to give rescuers feedback on the effectiveness of their CPR efforts. It gives real-time instructions regarding compressions with audible “Good Compressions” or “Push Harder,” “Push Faster” and “Push Slower.” These instructions also are displayed on the face of the device in order to ensure the rescuer performs the most effective CPR. Made in UK.

Code:	E-AED-HS-PAD500
CPR Advisor:	Yes
Weight:	1,1 kg
Size:	20 x 18.4 x 4.8 cm
Battery capacity:	> 60 shocks or 2 hrs
Pediatric switch:	Pediatric Pad Pak
Electrode shelf life:	4 years
Battery standby life:	4 years
Memory for ECG:	90 mn
Waterproof:	Yes
Warranty:	8 years

Heartsine Samaritan Adult PAD-PAK

HeartSine has taken an innovative approach to maintenance items by incorporating the AED electrodes and batteries into one single-use cartridge called the Pad-Pak™. The advantage to the Pad-Pak is that there is only one date to monitor and only one item to replace upon expiration or after use.

Code:	E-AED-HS-APADPAK
Battery capacity:	> 60 shocks or 2 hrs
Electrode shelf life:	4 years
Battery standby life:	4 years

Heartsine Samaritan Children PAD-PAK

For children younger than eight years or weighing less than 25 kg/55 lbs, HeartSine offers the Pediatric-Pak™. The HeartSine PAD's built-in intelligence and unique Pediatric Pad-Pak ensure the appropriate energy level is delivered for children.

Code:	E-AED-HS-CPADPAK
Battery capacity:	> 60 shocks or 2 hrs
Electrode shelf life:	4 years
Battery standby life:	4 years

Philips Heartstart FRx AED Ready Pack

The HeartStart FRx Ready-Pack configuration is delivered to you complete and virtually ready to rescue. Built on a platform of proven ease-of-use, the FRx features CPR coaching and intuitive icon-driven operation. Calm, clear voice instructions are tailored to the responder's actions, providing guidance during the resuscitation of an SCA victim. The Philips SMART Biphasic waveform is highly effective. Its effectiveness is backed by over 40 published, peer-reviewed studies. Made in USA.

Code:	E-AED-PH-HSFRX
CPR Advisor:	No
Weight:	1,5 kg
Size:	22 x 18.4 x 6 cm
Battery capacity:	> 200 shocks or 4 hrs
Pediatric switch:	Pediatric Key
Electrode shelf life:	2 years
Battery standby life:	4 years
Memory for ECG:	15 mn
Waterproof	Yes
Warrantee:	6 years

Philips Battery for HeartStart FRx / Onsite HS1

Philips battery for HeartStart FRx, OnSite HS1 AED. 4 years' standby life compatible with Philips FRx & OnSite AEDs. Easy to install.

Code:	E-AED-PH-FRX-BT
Battery capacity:	> 60 shocks or 2 hrs
Battery standby life:	4 years

Philips Pads SMART II for FRX / FR2

Save valuable time in an emergency with pads that can be used on adults and children. Philips SMART Pads II for the HeartStart FRX AED eliminate the expense of having to purchase different pads sets for different patient types. These pre-connected pads are packaged in a semi-rigid pads case for added protection, and are equipped with a HeartStart-compatible plug for easy hand-off to Philips ALS defibrillators and to competitive defibrillators with adapters. For patients less than 8 years old or 55 lbs (25 kg), use the infant/child key, if available (HeartStart FRx).

Code:	E-AED-PL-FRX-PSM2
Battery capacity:	> 200 shocks or 4 hrs
Electrode shelf life:	2 years

Philips Child Key for HeartStart FRx

You don't need to purchase a separate set of pediatric pads every two years with the Philips FRx AED. When the Philips FRx Infant/Child key is inserted into the AED, it reduces the energy and allows you to use the adult pads on pediatric patients. This makes the Philips FRx very cost effective to own over a long period of time. The key can be used an unlimited amount of times and never needs to be replaced. Make sure to have an extra set of adult electrodes as a back-up (Philips Pads SMART II).

Code:	E-AED-PL-FRX-CK
Utilization:	Pediatric mode

**Indoor Metal AED Cabinet
Alarm Free Access**

This AED cabinet is wall mountable. Made from sturdy metal construction, it protects and prominently displays your AED. Free access. Alarm and strobe light. Available in green or white colour. Made in Europe.

CPR Face shield Keychain

This single use CPR face shield is packed in a handy keychain bag so you are always ready to perform both animal and human CPR. The one-way valve and water filter are combined to block fluid and secretions protecting the rescuer by preventing direct contact with the patient's mouth.

Code: **E-CPRFS**
 Material mask: PVC material.
 Material pouch: PP material
 Mask size: L 28 cm x W 20 cm
 Pouch size: L 5 cm x W 5 cm

Guedel Airways Set of 4

Guedel's Oropharyngeal airways are designed to lift the tongue off the posterior pharyngeal wall preventing airway obstruction. Anatomically correct for patient comfort. Colour coded in size order. Large lumen enables exchange of expired air. Set of 4 Guedal Airways.

Code: **E-GDL-S4**
 Material: PVC material
 Sizes: 4 sizes

Adult CPR Bag Valve Mask Manual Resuscitator

This adult bag valve mask or manual resuscitator is made in PVC. It provides users with exceptional tactile and visual feedback during resuscitation. The bag is highly responsive, with minimal mechanical resistance. Its convenient handle makes it easier hold the unit and to ventilate a patient with just one hand if necessary. And its characteristic design provides optimum stroke volume with perfect recoil.

Code: **E-BVM-AMR**
Material: PVC
Content: Oxygen tubing 2M,
reservoir bag 2000ML and
PVC mask 4#

Child CPR Bag Valve Mask Manual Resuscitator

This Child CPR Bag Valve Mask or manual resuscitator is made in PVC. It provides users with exceptional tactile and visual feedback during resuscitation. The bag is highly responsive, with minimal mechanical resistance. Its convenient handle makes it easier hold the unit and to ventilate a patient with just one hand if necessary. And its characteristic design provides optimum stroke volume with perfect recoil.

Code: **E-BVM-CMR**
Material: PVC
Content: Oxygen tubing 2M,
reservoir bag 1600ML and
PVC mask 2#

Infant CPR Bag Valve Mask Manual Resuscitator

This infant CPR Bag Valve Mask or manual resuscitator is made in PVC. It provides users with exceptional tactile and visual feedback during resuscitation. The bag is highly responsive, with minimal mechanical resistance. Its convenient handle makes it easier hold the unit and to ventilate a patient with just one hand if necessary. And its characteristic design provides optimum stroke volume with perfect recoil.

Code: **E-BVM-IMR**
Material: PVC
Content: Oxygen tubing 2M,
reservoir bag 1600ML and
PVC mask 1#

Disposable Breathing Filter for Manual Resuscitator

Disposable Breathing Filter for Manual Resuscitator. Breathing Filter, Bacterial/Viral made in PVC. Designed to prevent bacterial/viral cross contamination via manual resuscitators. Breathing Filter, Bacterial/Viral. Designed for use with manual resuscitators where filtration of inspired or expired gases is required. Place at machine end on the inspiratory and/or expiratory side of patient circuit.

Code: **E-BVM-DBF**
Material: PVC
Quantity: Pack of 10 pcs.

Portable Oxygen Set 425 L

Portable Oxygen Set 425 L. The vertical shoulder bag allows the patient to carry the bag in this position while concealing the entire oxygen system. The bag employs an adjustable, heavily padded shoulder strap to reduce stress from the weight of the cylinder. A quick opening allows the patient to view the gauge contents of the cylinder without removing the cylinder from the bag. The bag is constructed of washable, heavy-duty denier, has large easy-grab zipper pulls, an embroidered carrying handle for easy pick up, and a large external zippered pocket.

Code: **E-MO-PO425L**
Material: Aluminium tank
Size: 22×9 cm
Weight: 4 kg
Usage: 2 hours at 2lpm
Set includes:

Oxygen Mask Adult

Oxygen mask - Adult, including kink-resistant tubing (single patient use)

Code: **E-MO-OMA**
Material: 100% latex free material.

Oxygen Mask Children

Oxygen mask - Children, including kink-resistant tubing (single patient use)

Code: **O-MO-OMC**
Material: 100% latex free material.

Oxygen Mask Infant

Oxygen mask - Infant, including kink-resistant tubing (single patient use)

Code: **O-MO-OMI**
Material: 100% latex free material.

Long Spinal Board

Long Spinal Board to transfer patients with secure movement.

Code: **E-IM-LSB**
Material: HDPE – High Density Polyethylene
Size: 183 x 44 x 5 cm
Weight: 5.67kg
Loading capacity: 200 kg
Content: Board, head mobilizer, 3 belts

Aluminum Scoop Stretcher

Aluminum scoop stretcher is designed to be gently maneuvered under patient without rolling or lifting. Open center permits patient to be X-rayed or to be moved and immobilized on the long spinal board.

Code: **E-IM-ASS**
Material: Aluminium
Sizes: Length – 120 cm (Folded) / 166 cm (Min) / 201 cm (Max), Width- 43 cm, Height- 4 cm
Weight: 9.7 kg
Loading capacity: 157 kg

Philadelphia Cervical Collar

The Philadelphia cervical collar simplifies your job, saves space and provides outstanding immobilization. The quickest and easiest-to-use adjustable collar on the market. All you have to do is measure the patient, select the size, adjust and lock!

Code: **E-IM-PCC**
Material: PVC and closed-cell foam
Sizes: 4 adjustable levels. Locks ensure selected sizes stay in place
Advantages: Adjustment tracks ensure symmetrical alignment of size. Room for large fingers to slide through the rear panel opening for cervical palpation. Radiolucent, MRI and CT scan compatible

Moldable Splint

This Moldable Splint gives firm, waterproof support with variable positioning. Lengthwise cut creates a longitudinal bend which gives the splint its strength. Curve outside edges in the opposite direction add strength. Compact, lightweight, heat-resistant and reusable. This splint can be used as wrist splint, ankle splint, foot splint, neck splint, finger splint and leg splint. Made of aluminum & closed-cell foam

Code: **E-IM-MS41436**
Material: Made of aluminum & closed-cell foam
Size: 4-1/4" W x 36" L
